

# Book Trailer Reflection

Inferring: Helps your thinking and helps you learn.

Thinking card: It helped me with the colours and the genre.

Planning template: the planning template definitely helped me it helped me with my slides and music basically everything.

Story board: The story board helped alot if I didnt use it I probably wouldnt be done my book trailer.

tweaking process as really hard cause I had to keep constantly changing little things.

**Book trailer** - once someone told me what to do on the technical pieces I knew what to do so it wasn't that hard.

I loved making the book trailer and I can't wait for my mom and dad to see it.

well I had the book my whole life so I used alot of my prior knowledge.

I learned alot more about the book and computers, I want to make another one!
